

# ForeScout Certified Professional Training and Certification

At ForeScout, we believe training is a critical component of any successful solution. To that end, our instructors are highly skilled teachers and technologists who bring a wealth of practical experience to the classroom. They are experts at designing and implementing ForeScout solutions.

## The Certified Professional Training: Taking It to the Next Level

At ForeScout Technologies, we believe a trained customer is a critical component of a successful security solution. Our instructor-led training provides the practical skills to customize, protect and maintain the ForeScout platform. Our instructors are highly trained professionals who bring a wealth of practical experience to the classroom. As members of our Professional Services team, they are skilled at training, designing and implementing the ForeScout platform.

- **Deeper knowledge.** Our FSCP course expands on concepts from the Administrator course and builds your understanding of advanced integration and troubleshooting techniques. Hands-on exercises give students a chance to experiment with the tools and practice the concepts covered during classroom sessions.
- **Cost-effective.** We offer a variety of training options (ForeScout-hosted, partner-hosted, at your facility or virtual training). These options ensure a training solution that meets your budget, schedule and organizational needs.

## About This Course
