FORESCOUT®

NETWORK SECURITY:
AUTOMATION & CONTROL

Network security posture management with automated orchestration and policy enforcement across the cybersecurity ecosystem.

Network Security Automation & Control delivers real-time and continuous visibility across all asset types and enables secure and compliant connectivity between all asset types within the network. Organizations can automate compliance and policy control allowing for quick incident recovery with integrated and automated workflows for improved cybersecurity response.

KEY BENEFITS:

▶ Secure and comprehensive visibility, insight and assessment into all connected devices ensuring that they can be monitored, managed and controlled in compliance with internal policies, external standards and industry regulation.

▶ Automation of device compliance procedures and policy enforcement streamlining security management.

▶ Rapid configurable response to security incidents helping to minimize potential damage and downtime.

▶ Seamless integration with existing security infrastructure and network workflows to enhance operational efficiency and investments while improving interoperability and strengthening security measures.

▶ Flexible deployment options for cloud and on-prem.

▶ Premium Support optimizes the solution with technical help, upgrade services, regular health checks, configuration and policy tuning, access to E-Learning and more for continuous platform enhancement.

USE CASES:

▶▶ **ASSET DISCOVERY & CLASSIFICATION OF MANAGED AND UNMANAGED ASSETS**

▶▶ **AUTOMATED COMPLIANCE ASSESSMENT**

▶▶ **ASSET REMEDIATION**

▶▶ **RISK MITIGATION**

▶▶ **MODERN NETWORK ACCESS CONTROL**

▶▶ **SECURITY AUTOMATION**

▶▶ **THREAT CONTAINMENT**

▶▶ **AUTOMATED INCIDENT RESPONSE**

▶▶ **ORCHESTRATION & AUTOMATION WITH YOUR CYBER ECOSYSTEM**

NETWORK SECURITY - AUTOMATION & CONTROL INCLUDES:

Products / Services	Included
eyeSight – Asset discovery, classification, and assessment	✔
eyeControl – Modern network access control	✔
eyeRecover – Service continuity and resiliency	✔
eyeExtend Connect – Create and deploy eyeExtend applications	✔
eyeExtend Ecosystem – Shared device context and policy enforcement	✔
Premium Support – Ongoing optimization and health maintenance services	✔
Gold or Diamond Support Services – Proactively drive advanced solution optimization	Elective add-on
Adoption Support Services – Onboard and maximize solution adoption and ROI	Elective add-on
Threat Detection & Response – SOC productivity and efficiency	Elective add-on
