

NETWORK SECURITY: CYBER ASSURANCE

A multi-layer network security and risk exposure management solution to protect against constantly evolving cyber threats.

With Network Security Cyber Assurance organizations can fortify their cyber defense from multiple angles. This offering allows IT and security operations leaders to achieve comprehensive network visibility to enforce robust access controls and swiftly respond to incidents. Since it integrates within your IT and cybersecurity ecosystem, you can effectively manage risk and ensure compliance.

KEY BENEFITS:

- ▶ Secure and comprehensive visibility, insight and assessment into all connected devices ensuring that they can be monitored, managed and controlled in compliance with internal policies, external standards and industry regulation.
- ▶ Automation of device compliance procedures and policy enforcement, streamlining security management.
- ▶ Rapid configurable response to security incidents helping to minimize potential damage and downtime.
- ▶ Seamless integration with existing security infrastructure and network workflows to enhance operational efficiency and investments while improving interoperability and strengthening security measures.
- ▶ Extend visibility into network traffic flows to segment, mitigate risk and demonstrate compliance.
- ▶ Manage segmentation policies through a single policy layer which extends across the entire environment.
- ▶ Build and visualize zero trust policies for creating context-aware segmentation policies for segmentation policy design and validation.
- ▶ Risk-based prioritization and mitigation enforcement for enhanced network protection.
- ▶ Flexible deployment options.
- ▶ Premium Support optimizes the solution with technical help, upgrade services, regular health checks, configuration and policy tuning, access to E-Learning and more for continuous platform enhancement.

USE CASES:

- ▶ ASSET DISCOVERY & CLASSIFICATION OF MANAGED AND UNMANAGED ASSETS
- ▶ AUTOMATED COMPLIANCE ASSESSMENT
- ▶ ASSET REMEDIATION
- ▶ RISK MITIGATION & PRIORITIZATION
- ▶ MODERN NETWORK ACCESS CONTROL
- ▶ SECURITY ORCHESTRATION
- ▶ THREAT CONTAINMENT
- ▶ DYNAMIC NETWORK SEGMENTATION
- ▶ TRAFFIC VISUALIZATION & ANALYSIS
- ▶ ZERO TRUST ARCHITECTURE DESIGN
- ▶ ORCHESTRATION & AUTOMATION WITH YOUR CYBER ECOSYSTEM
- ▶ ATTACK SURFACE MANAGEMENT
- ▶ EXPOSURE MANAGEMENT

NETWORK SECURITY - CYBER ASSURANCE INCLUDES:

For decades, Forescout and Microsoft have collaborated to address critical cybersecurity challenges facing organizations with a focus on protecting all assets from nonstop advancements in the threat landscape.

Products / Services	Included
eyeSight – Asset discovery, classification, and assessment	✓
eyeControl – Modern network access control	✓
eyeRecover – Service continuity and resiliency	✓
eyeExtend Ecosystem – Shared device context and policy enforcement	✓
eyeExtend Connect – Create and deploy eyeExtend applications	✓
eyeSegment – Network segmentation and traffic visualization	✓
Forescout Risk and Exposure Management - Identify, prioritize and mitigate risk and compliance	✓
Premium Support – Ongoing optimization and health maintenance services	✓
Gold or Diamond Support Services – Proactively drive advanced solution optimization	Elective add-on
Adoption Support Services – Onboard and maximize solution adoption and ROI	Elective add-on
Threat Detection & Response – SOC productivity and efficiency	Elective add-on
